QGIS Application - Bug report #2018
the order of grouped layers changes unexpectedly on other tasks

2009-10-16 02:38 PM - Milena Nowotarska

Status:	Closed		
Priority:	Low		
Assignee:	Giuseppe Sucameli		
Category:	Map Legend		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12078

Description

Daphnis crashes when playing with layers grouping

4 layers: one point layer and 3 polygon

1. group plygon layers

2. set off visibility of the group layer

3. qgis crashes

History

#1 - 2009-10-16 02:42 PM - Giovanni Manghi

If I'm not wrong there were a few changes/fixes since 1.2 in the legend. Please try a newer version (1.3 or trunk) and report back.

#2 - 2009-10-17 03:33 AM - Giovanni Manghi

tested under xp with qgis >= 1.3 and no crash. Please test again and leave feedback.

#3 - 2009-10-17 02:57 PM - Milena Nowotarska

I can not confirm crash for 1.3 nor trunk 11818.

But something else happens: layers are changing their order when changing visibility, they even jump to the oter group of layers.

Also so called "Files" may jump out of main layer, see attachement.

> *Also so called "Files" may jump out of main layer, see attachement.*

yes you are right, it does happens, and if I'm not wrong there is already a ticket about it. But don't close this, it may help underline the problem. Just change the title as the original problem your reported has been solved.

#5 - 2010-04-02 03:00 PM - Mayeul Kauffmann

I can confirm that "sometimes" (hard to predict) changing the visibility of a layer makes it move up or down in the layer panel (qgis 1.4.0 on Kubuntu 9.10). I changed the priority from minor to major: the goal of the layer panel is to organize panels into groups to facilitate finding your layers; randomly "jumping" layers prevent the layer panel to reach that goal, especially when you have numerous layers in a project.

#6 - 2010-06-03 07:40 PM - Giuseppe Sucameli

Can anybody tries if now (from commit:c43e11e4 (SVN r13643)) legend works as expected? So I can close also this ticket.

#7 - 2010-06-11 11:14 AM - Giovanni Manghi

please leave feedback so we can eventually close this ticket

#8 - 2010-06-22 03:50 AM - Giovanni Manghi

- Resolution set to fixed

- Status changed from Open to Closed

this should be fixed, reopen if necessary.
