QGIS Application - Bug report #2029
Layer properties's attributes: importing value map from external csv is not utf-8 compatible

2009-10-24 10:49 AM - Ricardo Silva

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Vectors		
Affected QGIS version:		**Regression?:**	No
Operating System:	Debian	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12089

Description

When importing a csv file for use with the "value map" type of widget, in the "Layer Properties" -> "Attributes" tab, the imported csv is not parsed as utf-8, causing the accents of my native language (portuguese) to appear all garbled up. I think the file is getting parsed as ASCII, which is kinda limited for us non english natives. This forces the user to manually edit the value map, defeating the whole process of loading data from an external csv file.

In attachment there is a sample csv with portuguese words.

History

#1 - 2009-10-24 01:12 PM - Giovanni Manghi

Good find Ricardo,

confirmed also with trunk under Ubuntu 9.04

#2 - 2009-10-24 01:41 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

should be fixed in commit:175e531e (SVN r11834)
