

QGIS Application - Feature request #2033

SVG symbols should not have fill and outline options available

2009-10-26 02:21 PM - John Tull

<b>Status:</b>	Closed

<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 12093
<b>Description</b>		
<p>When an svg symbol is selected, it is confusing to have options for color fill and outline. It would be more intuitive for the user to have the fill and outline options unavailable when using svg symbols. Perhaps these can be greyed out for symbols or classes that use svg symbols.</p>
