

QGIS Application - Feature request #20389

Remove opaque map plane in the 3D Viewer

2018-11-06 06:55 PM - Matthew Bodnar

Status: Open	
Priority: Normal	
Assignee:	
Category: 3D	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 28209
Description	
<p>The 3D viewer is a great feature and I am sure there is many plans in the future.</p> <p>I deal almost exclusively with 3D features below the surface (Boreholes, geologic features, etc...).</p> <p>It would be very helpful if there was an option to remove the opaque map canvas plane to see subsurface features from above as well.</p> <p>Many thanks.</p>
