| **Affected QGIS version:** | 3.4.1 | **Regression?:** | No |
| **Operating System:** | Windows 10-64 | **Easy fix?:** | No |
| **Pull Request or Patch supplied:** | No | **Resolution:** | |
| **Crashes QGIS or corrupts data:** | No | **Copied to github as #:** | 28237 |

**Description**

When snapping the Advanced Digitizing Panel to bottom half or the top half of another panel, it is no longer possible to resize both panels in the y plane. You can only resize in the x plane. Limited resizing is possible only if a vector layer and only if an advanced digitizing tool are selected.
