<b>Description</b>		
<p>Hello folks,</p> <p>I am testing the print composer in the current trunk and I discovered this:</p> <ul style="list-style-type: none"><li>- Add a map element to the print composer;</li><li>- Add a scalebar ( the map field should be Map 0);</li><li>- Close the composer and start a new one;</li><li>- Add a map element and a scalebar</li><li>- The map field in the scalebar says Map 1 as if I am in the previous composer.</li></ul> <p>Ciao</p> <p>Luca</p>
