

QGIS Application - Bug report #20432

Missing "resampling method" and "overview format" in GDAL "create overviews" tool

2018-11-09 10:49 PM - Ken Martin

Status: Closed	
Priority: High	
Assignee: Giovanni Manghi	
Category: Processing/GDAL	
Affected QGIS version: 3.4.1	Regression?: Yes
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Copied to github as #: 28252
Description	
Selecting a "Resampling method" in the "Create Options - pyramids" dialog that's presented when clicking on "Edit Pyramid Options" in <u>Settings > Options > GDAL > GTiff</u> is not honored.	
It is saved (it's there when I go back again, and it persists across app restarts), but in either <u>Rasters > Miscellaneous > Build Overviews (Pyramids)</u> or in <u>Processing Toolbox > GDAL > Raster Miscellaneous > Build Overviews (Pyramids)</u> I only ever see <code>-r nearest</code>

History

#1 - 2018-11-12 12:02 PM - Giovanni Manghi

- Subject changed from *Options > GDAL > GTiff > Edit Pyramid Options not honored* to *Missing "resampling method" and "overview format" in GDAL "create overviews" tool*

- Priority changed from *Normal* to *High*

- Assignee set to Giovanni Manghi
- Category changed from GDAL Tools to Processing/GDAL
- Regression? changed from No to Yes
- Operating System deleted (Mac OS 10.13)
- Affected QGIS version changed from 3.4.0 to 3.4.1

The options were available in 2.18.

#2 - 2019-01-01 12:34 PM - Alexander Bruy

- % Done changed from 0 to 100
- Status changed from Open to Closed

Applied in changeset commit:qgis|3d33b9f1e227b569c59d25df311b36e8412d1d77.

#3 - 2019-01-01 12:38 PM - Alexander Bruy

- Resolution set to fixed/implemented
