

QGIS Application - Bug report #20463

Projection problems when doing shape- to mapinfo-file conversions

2018-11-12 11:23 AM - Styrbjörn Holmberg

Status: Closed	
Priority: Normal	
Assignee:	
Category: Projection Support	
Affected QGIS version: 3.0.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: no timely feedback
Crashes QGIS or corrupts data:	Copied to github as #: 28283
Description	
<p>When a shape is saved as mapinfo the projection seems to force it to save as WGS84. The project projection as well as the shape-file is set to Sweref99TM but the mapinfo-file gets set to WGS84 when I open it.</p>	

History

#1 - 2018-11-12 12:09 PM - Giovanni Manghi

- Status changed from Open to Feedback

1) try 3.4.1

2) add the detailed steps you are doing to save/change format to your data

#2 - 2019-02-23 08:37 PM - Jürgen Fischer

- Resolution set to no timely feedback

- Status changed from Feedback to Closed

Bulk closing 82 tickets in feedback state for more than 90 days affecting an old version. Feel free to reopen if it still applies to a current version and you have more information that clarify the issue.
