QGIS Application - Bug report #2053
Qgis segfaults when starting on Karmic

2009-11-06 06:03 AM - Ilija Milicevic -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Build/Install			
Affected QGIS version:			**Regression?:**	No
Operating System:	Linux		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	worksforme
Crashes QGIS or corrupts data:			**Copied to github as #:**	12113

Description

Running on a clean install of Karmic64

The splashscreen comes on but then it crashes

When I fire it up from the CLI, it shows a segfault

Strace output included

History

#1 - 2009-11-29 05:44 AM - Giovanni Manghi

Did you installed from repository or did you compiled the source code? In case, what repository did you used?

I believe that qgis available in the repositories is for 32bit architecture.

Please leave feedback.

#2 - 2009-12-07 04:04 AM - Giovanni Manghi

- Resolution set to worksforme

- Status changed from Open to Closed

There are not particular problems compiling on Karmic, if you need further assistance please drop a line.

Closing for lack of feedback. Reopen if necessary.
