QGIS Application - Bug report #20537
Testing a filter for .osm datasources shows placeholders in the message

2018-11-18 04:02 AM - Ivan Ivanov

Status:	Open		
Priority:	Normal		
Assignee:			
Category:	Vectors		
Affected QGIS version:	3.4.1	**Regression?:**	No
Operating System:	Ubuntu 18.10, Windows 10	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	28357

Description

When applying a filter (e.g. 1 = 1) on a vector layer and pressing the Test button, sometimes I get message with placeholders unreplaced:

> *The where clause returned %n row(s).*

This currently happened on a .osm layer.

History

- Status changed from Open to Feedback

- Priority changed from Low to Normal

Does it work as expected on 2.18?

#2 - 2018-11-20 01:58 PM - Alessandro Pasotti

I cannot reproduce on master. What are your language settings?

#3 - 2018-11-20 06:29 PM - Ivan Ivanov

I had the same problem on Windows 10 and Ubuntu before with en_US systrem locale. What is more, currently the bug only is observed only with .osm files, tried with .gpkg/.shp/.gdb and it correctly replaces the placeholder with number.

```
suricactus@orange:~$ locale
