<p>I made a simple atlas with a trivial layout: a map and relative table attributes of the atlas.</p> <p>The attribute table has 6 fields, but in the layout I configure the table for display only the first two fields.</p> <p>The annoying bug re-presents all the fields at the next opening of the project.</p> <p>I enclose the project and data: the project is saved to display two attributes table fields in the atlas</p> <p>the problem also occurs in the nightly build</p> <p>thx</p>
