I cannot confirm, or maybe I don't understand what you mean in the step4. A screencast would help.

Also try with NO 3rd party plugins (clean/new profile).

##### #2 - 2018-11-21 03:08 PM - salvatore fiandaca

I created a new profile and everything works.

I have to find the killer plugin.

thank you

in this video the problem with an old qgis profile
