

QGIS Application - Bug report #20576

Save SQL as file

2018-11-21 08:36 AM - Tomasz Rychlicki

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	DB Manager	
Affected QGIS version:	3.5(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 28396
Description		
<p>While saving SQL query as a file it saves not to '.sql' file but to '.sql,.sql' file. It also adds a empty line in every even line of the created file. I think it would be better if it would not add those empty lines.</p>

Does it works as expected on 2.18?

#2 - 2018-11-21 01:53 PM - Tomasz Rychlicki

It's a new feature. I mean saving SQL statement to a file. It's a new feature, present only in master. I think it was added in this week.
