QGIS Application - Bug report #20605
Python error on opening or making some shp's and WMS layers

2018-11-23 11:31 AM - Tessa Beukelaar - van Gulik

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Python bindings / sipify		
Affected QGIS version:	3.4.0	**Regression?:**	No
Operating System:	Windows 10	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	28425

Description

I keep getting the same error sincce starting using QGIS3 on opening and making new shapefiles:

2018-11-23T10:40:21   WARNING   Traceback (most recent call last):

File "C:/Users/Tessa/AppData/Roaming/QGIS/QGIS3\profiles\default\python\plugins\qgiscloud\qgiscloudplugindialog.py", line 690, in update_local_layers

self.update_local_data_sources(local_layers, local_raster_layers)

File "C:/Users/Tessa/AppData/Roaming/QGIS/QGIS3\profiles\default\python\plugins\qgiscloud\qgiscloudplugindialog.py", line 754, in update_local_data_sources

table_name_item = QTableWidgetItem(self.launder_pg_name(table_name).decode('utf-8'))

File "C:/Users/Tessa/AppData/Roaming/QGIS/QGIS3\profiles\default\python\plugins\qgiscloud\qgiscloudplugindialog.py", line 843, in launder_pg_name

input_string = input_string.decode('utf-8')

AttributeError: 'str' object has no attribute 'decode'

During handling of the above exception, another exception occurred:

Traceback (most recent call last):

File "C:/Users/Tessa/AppData/Roaming/QGIS/QGIS3\profiles\default\python\plugins\qgiscloud\error_report_dialog.py", line 78, in __reportError

url.setEncodedUrl("mailto:support@qgiscloud.com?subject=%s&body=%s" % (

AttributeError: 'QUrl' object has no attribute 'setEncodedUrl'

I have no idea what it is and what I can do about it.

Thank you in advance!

- Resolution set to invalid

- Status changed from Open to Closed

Is QGIS Cloud plugin error, not a QGIS one.

#2 - 2018-11-23 01:15 PM - Tessa Beukelaar - van Gulik

- Status changed from Closed to Reopened

Yes, ok, but it only started with QGIS 3 and I'm no closer to a solution. Could you at least point me to where I can go with this problem if not here?

Everytime I open a proejct with requiered layers or newly made shapefiles, since QGIS 3 I get this error. QGIS still works, but I have to click on close about twnetytimes, each time I use QGIS 3.

- Status changed from Reopened to Closed

You have to report the problem to the plugin authors.

#4 - 2018-11-23 01:26 PM - Tessa Beukelaar - van Gulik

Thank you! for pointing me to the plugin. Just switched it off and NO ERROR. I don't actually use the plugin or installed it in the first place. I'm very happy now :)
