QGIS Application - Bug report #20606

'\n' button in function editor generates invalid code

2018-11-23 12:34 PM - Patrick Dunford

Status:	Open		
Priority:	Normal		
Assignee:			
Category:	Field calculator		
Affected QGIS version:	3.4.1	**Regression?:**	No
Operating System:	Debian 9.6 / KDE	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	28426

Description

In the function editor for captions you have a button clearly labelled '\n' but when you press it, it outputs '\&n'. The difference is the former is acceptable and the latter is invalid as far as the function editor is concerned.

History

Sorry, correction. It doesn't create invalid code. The preview outputs a different result, like the literal ?n instead of a newline.
