

QGIS Application - Bug report #2061

build fails, problem with sip

2009-11-07 07:17 AM - pvanbosgeo -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Build/Install	
Affected QGIS version:	Regression?: No
Operating System: Linux	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 12121

Description

This does to be similar to the bug 1959, but different platform (Ubuntu 9.1). I am trying to build QGIS from source (from svn r11953). I am getting the following error message:

```
/home/name/Software/QGIS/qgis_1.3.0/python/core/conversions.sip: In function 'int
convertTo_QMap_1800_0600QMap_1800_0100QVariant(PyObject*, void**, int*, [[PyObject]])':
/home/name/Software/QGIS/qgis_1.3.0/python/core/conversions.sip:369: error: 'sipClass_QVariant' was not declared in this scope
/home/name/Software/QGIS/qgis_1.3.0/python/core/conversions.sip:396: error: 'sipClass_QVariant' was not declared in this scope
maker3: * [sipcoreQMap18000600QMap18000100QVariant.o] Error 1
maker2: [python/core/core.so] Error 2
maker1: [python/CMakeFiles/python.dir/all] Error 2
make: * [all] Error 2
```

History

Are you building QGIS from SVN trunk? or some branch?

Martin

#2 - 2009-11-07 07:38 AM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

qgis 1.3 doesn't build with SIP 4.9. The sip part of patch http://launchpadlibrarian.net/33761131/qgis_1.3.0-1~karmic9.diff.gz should help - it's a backport of commit:94ab29b1 (SVN r11781). Feel free to reopen, if it doesn't
