

QGIS Application - Feature request #2066

Remove last inserted vertex when digitizing

2009-11-08 05:39 AM - Ivan Mincik

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Pull Request or Patch supplied:		Resolution: invalid
Easy fix?:	No	Copied to github as #: 12126
Description		
<p>When digitizing large object (linestring or polygon) there is no possibility to remove last inserted vertex in case we inserted it to wrong place. Only solution is to remember that location, finish object digitizing and edit object again with standard tools.</p> <p>Is it possible to add removing inserted vertexes for example to Undo function ?</p> <p>Thanks</p>

try the "del" key.

Please check and close if necessary.

#2 - 2009-11-08 06:24 AM - Giovanni Manghi

- Resolution set to invalid
- Status changed from Open to Closed

is the "backspace" key
