Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	28484

Description

Hello,

When I try to load Google Streets, or Google Physical, or Google Hybrid or Google Physical, or Google Satellite or Apple Maps they do not load into the canvas and I always receive this error message:--

2018-11-29T00:13:13   INFO   Executing :
2018-11-29T00:13:20   INFO   Executing :
2018-11-29T00:13:34   INFO   Executing :
2018-11-29T00:13:56   WARNING   OpenLayers Plugin : Printing and rotating of Javascript API based layers is currently not supported!
