

QGIS Application - Feature request #20709

Adjust window docking tolerances

2018-12-03 11:27 PM - Greg Byrom

Status:	Open	Resolution: Copied to github as #: 28529
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>I find the docking distance for windows in the QGIS interface far too large and it's annoying to have a window latch onto a dockable space when I don't want it to, and just want to have the window floating in the interface.</p> <p>It would be useful to be able to adjust this docking tolerance distance per-project, or to be able to switch it off altogether so that un-docked windows don't attempt to dock.</p>
