Zoom to Layer does not respond to filtered WFS

When using Zoom to Layer on a filtered WFS QGIS zooms to the entire layer, not to the ones in the map.

In my case I have filtered 'fkg:t_5710_born_skole_dis' url='https://fkg.mapcentia.com/wfs/kom167@fkg/fkg/25832' version='auto' table="" sql=SELECT * FROM t_5710_born_skole_dis where kommunekode = 167 by the municipality code = 167, but when using Zoom to Layer all of Denmark is displayed.

- Status changed from Open to Feedback

Does it works as expected on 2.18?

#2 - 2018-12-07 02:55 PM - Lars Ellebjerg
Yes, 2.18 zooms to the elements which are included in the map.
