

QGIS Application - Bug report #2083

Map Composer: Templates create duplicate items

2009-11-12 12:12 PM - mesajs -

Status: Closed	
Priority: Low	
Assignee: Marco Hugentobler	
Category:	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 12143

Description

Items duplicated when saving/loading from templates.

To reproduce:

1. Create map with map, legend and scalebar items.
2. Customise.
3. Save as template.
4. Load from template.
5. Save as template.
6. Load from template.

Result: On the second reload (step 6), all items (map, legend, scalebar) are duplicated. The size of the second template on disk (step 5) is about three times that of the first (step 3).
