Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	28658	

Description

Given a QgsCheckableComboBox with all items checked. Deselecting all items, but a single one. After clicking somewhere else in the GUI, the item that was still selected is also deselected most of the times.

Bug was observed in a small PyQt GUI programm and is reproducible inside the QtDesigner.
