

QGIS Application - Bug report #20877

Transifex is out of sync

2018-12-24 09:20 AM - songbo gong

Status: Closed	
Priority: Normal	
Assignee: QGIS Translation Team	
Category: Translations and international	
Affected QGIS version: 3.4.2	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 28696
Description	
<p>Translations on Transifex are not pulled into master. Presumably this has something to do with three-dot-to-eclipse change in the original English text. All translation made these two months will be lost?</p>	

History

- Resolution set to invalid
- Status changed from Open to Closed

No, transifex translations are only meant for master (and used for the master nightlies and pulled into the next release). The ts files for release branches have to be updated with scripts/update_ts.sh and linguist.
