

QGIS Application - Bug report #20914

Reclassify by table do not work in Processing modeller

2019-01-04 07:20 AM - Axel Hörteborn

Status:	Closed	
Priority:	Normal	
Assignee:	Nyall Dawson	
Category:	Processing/Modeller	
Affected QGIS version:	3.4.3	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 28733
Description		
<p>I'm trying to use the model builder and include the new native "Reclassify by table" algorithm, but I can't get the option to fill in the table that I want to reclassify after in Models.</p> <p>It works fine if I just use the the algorithm in QGIS (so the workaround is to do this step outside the model).</p>

You need to add a parameter for classes in the modeler and fill in it with your values. Then this parameter will be available for selection.
