

QGIS Application - Bug report #20984

Missing method QgsGeometry::fromPoint

2019-01-13 01:51 PM - Francisco Raga

Status: Rejected	
Priority: Normal	
Assignee:	
Category: Vectors	
Affected QGIS version: 3.5(master)	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 28803
Description	
I don't know the reason but there is no method to change the geometry of points with z value! It's a bug or a change contemplated in the roadmap	

History

#1 - 2019-01-13 01:54 PM - Giovanni Manghi

- Priority changed from Low to Normal
- Status changed from Open to Feedback
- Category changed from 3D to Vectors

Questions of this type of are better asked in the developers mailing list.

#2 - 2019-01-13 10:54 PM - Nyal Dawson

- Resolution set to invalid
- Status changed from Feedback to Rejected

- There's dozens of methods to do this - e.g. <https://qgis.org/pyqgis/3.4/core/Point/QgsPoint.html#qgis.core.QgsPoint.setZ>
