

QGIS Application - Bug report #2100

zooming in crashes qgis trunk

2009-11-15 09:16 AM - Giovanni Manghi

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Map Canvas	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: worksforme
Crashes QGIS or corrupts data:	Copied to github as #: 12160

Description

We have noticed that under windows (xp, vista, seven) and linux (ubuntu 9.10) when zooming it a lot qgis takes a lot to get trough it and ultimately crashes (seg. fault). Using trunk, rev. 12096.

We are developing a project with simple polygon layers in a projected CRS (20790 and 20791), project crs 20790, ofr on, a raster loaded (in the 20790 crs).

History

#1 - 2009-11-23 12:56 AM - Giovanni Manghi

- Resolution set to worksforme

- Status changed from Open to Closed

A week later I cannot replicate the problem on the same platform, in the same conditions and with the same data. Closing.
