QGIS Application - Feature request #21084
Add support for downloading from FTP using Processing

2019-01-24 09:57 AM - Magnus Nilsson

Status:	Open		
Priority:	Normal

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	28902

Description

When I try to use the Processing tool for downloading a file from an FTP server, I get the error message "Download failed: No suitable proxy found.". The steps are:

1) Open the Processing tool for downloading files
2) I used the URL ftp://speedtest.tele2.net/2MB.zip
3) Run the tool
4) Error message appears

Does the tool support FTP?

History

- Category changed from Processing/Modeller to Processing/QGIS

- Subject changed from Download from FTP using Processing to Add support for downloading from FTP using Processing

- Tracker changed from Bug report to Feature request

#2 - 2019-01-28 11:25 AM - Magnus Nilsson

OK, it seems that there was no support for FTP and that this ticket is a feature request. I would like to add that support for downloading from password protected FTP sites would be useful.
