

QGIS Application - Bug report #21105

Array edit popup hides at bottom of attribute table

2019-01-25 11:31 PM - Spencer Gardner

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	3.4.4	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 28923
Description		
When I try to edit an array attribute at the bottom of an attribute table I can't access the list because it is hidden. (See screenshot)

Was this ok on 2.18?

#2 - 2019-01-26 05:20 PM - Spencer Gardner

Not sure. Didn't have occasion to edit array attributes when I was running 2.18 and I don't have it installed on any of my machines at the moment.

It appears array editing wasn't implemented in 2.18 (or at least not in the same way--when I click on an attribute it's a simple text edit with comma-separated values)
