

## QGIS Application - Bug report #21205

### no base mapping

2019-02-08 01:40 PM - Edward Stevenson

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Unknown	
<b>Affected QGIS version:</b>	3.7(master)	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 29023
<b>Description</b>		
<p>When I 1st started with QGIS 3.4.4 I added google maps/ satellite/ relief and they worked for 2 days but now I can't see any form of mapping through the XYZ tiles.</p> <p>I have reinstalled, I have deleted and redone the XYZ tiles, I have uninstalled all of my plugins and I have used EVERY single URL on these links:</p> <p><a href="https://wiki.openstreetmap.org/wiki/Tile_servers">https://wiki.openstreetmap.org/wiki/Tile_servers</a></p> <p><a href="https://raw.githubusercontent.com/klakar/QGIS_resources/master/collections/Geosupportsystem/python/qgis_basemaps.py">https://raw.githubusercontent.com/klakar/QGIS_resources/master/collections/Geosupportsystem/python/qgis_basemaps.py</a></p> <p>And yes, switched my computer off and on again!</p> <p>The latest set of instructions i am following is:</p> <p><a href="https://www.xyht.com/spatial-itgis/using-openstreetmap-basemaps-qgis-3-0/">https://www.xyht.com/spatial-itgis/using-openstreetmap-basemaps-qgis-3-0/</a></p> <p>And not a single XYZ tile loads, I have NO background mapping!</p> <p>Have I somehow blocked the XYZ tiles from loading on QGIS? Has anyone else experienced a similar problem with QGIS 3.4.4?</p> <p>Thanks</p>		

### History

#### #1 - 2019-04-04 11:23 AM - Jürgen Fischer

- Easy fix? set to No
- Regression? set to No
- Crashes QGIS or corrupts data set to No
- Affected QGIS version set to 3.7(master)
