

QGIS Application - Bug report #21205

no base mapping

2019-02-08 01:40 PM - Edward Stevenson

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	3.7(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29023
Description		
<p>When I 1st started with QGIS 3.4.4 I added google maps/ satellite/ relief and they worked for 2 days but now I can't see any form of mapping through the XYZ tiles.</p> <p>I have reinstalled, I have deleted and redone the XYZ tiles, I have uninstalled all of my plugins and I have used EVERY single URL on these links:</p> <p>https://wiki.openstreetmap.org/wiki/Tile_servers</p> <p>https://raw.githubusercontent.com/klakar/QGIS_resources/master/collections/Geosupportsystem/python/qgis_basemaps.py</p> <p>And yes, switched my computer off and on again!</p> <p>The latest set of instructions i am following is:</p> <p>https://www.xyht.com/spatial-itgis/using-openstreetmap-basemaps-qgis-3-0/</p> <p>And not a single XYZ tile loads, I have NO background mapping!</p> <p>Have I somehow blocked the XYZ tiles from loading on QGIS? Has anyone else experienced a similar problem with QGIS 3.4.4?</p> <p>Thanks</p>		

History

#1 - 2019-04-04 11:23 AM - Jürgen Fischer

- Easy fix? set to No
