QGIS Application - Feature request #21242
allow re-ordering of sections in report layout

Easy fix?:	No	**Copied to github as #:**	29060

Description

Currently, it doesn't seem possible to re-order sections in the report layout composer. Once a section is created, it seems to be fixed in its position in the document (short of editing the project's xml, I suppose).

I would expect to be able to drag and drop sections where I need them, or to be able to use up and down arrow buttons to reorder as needed.
