QGIS Application - Feature request #2133
add/delete/edit labels graduatedsymbolrendererv2

Description

The graduated symbol dialog was still missing some feature. The delete button did do anything and there was no way to add a class manually. Additionally editing the labels wouldn't do anything.

This patch should take care of the problems.

The patch did not work for me on OS X, commit:c66c0170 (SVN r12214) and qt-4.6rc. Here is the error output:
