Affected QGIS version:		**Regression?:**	No	
Operating System:	OS X	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	12196	

Description

When svg symbols are used in the print composer, they are not included in the rendered pdf when exporting to pdf. When outputting to png as an image file, the svg symbols are rendered as expected. This on OS X, qt-4.6rc.

History

#1 - 2009-11-30 01:00 AM - Giovanni Manghi

Is Just an OsX issue? on windows and linux seems to work fine.

#2 - 2009-11-30 06:42 PM - John Tull

- Resolution set to fixed

- Status changed from Open to Closed

It is working now. I suspect it was another qt-4.6 issue.
