<p>According to documentation https://docs.qgis.org/testing/en/docs/pyqgis_developer_cookbook/intro.html#the-startup-py-file I've created startup file in `~/local/share/QGIS/QGIS3/profiles/default/python/startup.py` and made it executable.</p> <p>When I start `qgis`, the file is not executed</p> <p>When I explicitly export `PYQGIS_STARTUP` variable, everything works as expected.</p>
