

QGIS Application - Feature request #21417

For polygon editing, expose the option "avoid intersection" also in the simple snapping configuration

2019-02-28 08:34 AM - Oliver Jeker

Status:	Open	Resolution: Copied to github as #: 29234
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>When digitizing adjacent polygons, the "avoid intersection" option is a tremendous help.</p> <p>Therefore, it would be great to have it also in the "non advanced" snapping configuration.</p> <p>Could simply be added at the end after "Snapping on intersection".</p>		

History

- #1 - 2019-03-01 08:37 PM - Giovanni Manghi
- Easy fix? set to No
  - Category changed from Any to Digitising
  - Project changed from QGIS Redmine (QGIS bug tracker) to QGIS Application

I agree.
