History

#1 - 2009-11-24 11:57 PM - Giovanni Manghi

there is a way to replicate this on purpose? I would like to see if it happens also on Linux.

#2 - 2009-12-19 03:18 AM - Martin Dobias

Additinally the password is also a part of layer ID - could be seen e.g. in project files or in python console by executing:

    print qgis.utils.iface.activeLayer().getLayerID()

#3 - 2010-03-07 10:18 AM - Jürgen Fischer

- *Resolution set to fixed*
- *Status changed from Open to Closed*

fixed in commit:3c5c55ee (SVN r12860).
