

QGIS Application - Bug report #21487

Default project CRS is overridden by data

2019-03-05 09:18 PM - Andy Harfoot

Status: Open	
Priority: Normal	
Assignee:	
Category: Projection Support	
Affected QGIS version: 3.6.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 29304
Description	
If the default CRS for new projects is set in the QGIS settings, this takes effect when a new project is created, however the project CRS is overridden as soon as a layer is added to it, rendering the default setting irrelevant. Observed in 2.18.28, 3.4.5 and 3.6.0
