QGIS Application - Bug report #21491
Autogenerated forms for M-N relations problem

2019-03-05 11:53 PM - Jorge Rosales

Status:	Closed		
Priority:	Normal		
Assignee:	Matthias Kuhn		
Category:	Relations		
Affected QGIS version:	3.4.5	**Regression?:**	No
Operating System:	Windows 10	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	29308

Description

Autogenerated forms for many to many (N-M) relations don´t hide pivot tables so you have to set ids instead entities from both sides. But if you use "Drag and drop designer" it works fine. I attach an example with the two cases.
