

# QGIS Application - Bug report #215

## svg export doesn't do text

2006-07-31 04:24 AM - Gavin Macaulay -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> Steven Bell -	
<b>Category:</b>	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> All	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 10274
<b>Description</b>	
<p>The save as svg option in the map composer doesn't include any of the text from the composer items (e.g., legend text, a label, and even text labels on map features).</p> <p>This looks like a problem with Qt's support for svg rather than a qgis problem.</p>	

### History

#### #1 - 2007-07-21 09:20 PM - Tim Sutton

Changed to minor under the following scheme:

- blocker - bugs that should block the release. Since we are going to release pretty much 'come what may' I would like no bugs
- allocated to this category without consultation with me and / or PSC
- critical - bugs that cause the application to crash or corrupt data
- major - application features that do not function at all
- **minor** - features that function but imperfectly e.g. labels placing incorrectly
- trivial - gui useability issues or small issues with the documentation, install notes etc.

Reassigned to Steven Bell who is working on composer stuff lately

#### #2 - 2008-05-15 06:58 AM - Steven Bell -

- *Resolution set to fixed*
- *Status changed from Open to Closed*

This appears to be fixed with the switch to QSvgGenerator.

#### #3 - 2009-08-22 12:54 AM - Anonymous

Milestone Version 0.9.2 deleted
