

QGIS Application - Bug report #21539

[Advanced Digitizing]

2019-03-10 02:03 AM - João Gaspar

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	3.4.5	Regression?: No
Operating System:	Windows 10 Home 64-bits	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29355
Description Tested in a shapefile format. Strange behaviour. See animated gif. Steps: <ol style="list-style-type: none">1. Create an empty polygon shapefile.2. Draw a polygon at least with 5 vertices.3. Click in the simplify feature button from advanced digitizing4. Click above the polygon double click many times. The dialogues start to appear and don't go away.		

History

- Status changed from Open to Feedback

Can't replicate here with the same version and environment.

#2 - 2019-03-12 03:10 PM - João Gaspar

Is awkward because in QGIS 3.4.5 and QGIS 3.6 I'm having the same behaviour. I edit click 1 time in polygon but don't click in OK or Cancel Button, I continue hitting the polygon and the dialog starts to duplicate, triplicate and so one. After this I can't cancel and I need to close and open QGIS to remove the dialogs
