QGIS Application - Bug report #21634
Add tooltips on the tabs inside the Mesh Properties Symbology tab

2019-03-21 09:47 AM - Harrissou Santanna

Status:	Open		
Priority:	Normal		
Assignee:	Peter Petrik		
Category:	Mesh layers		
Affected QGIS version:	3.4.5	**Regression?:**	No
Operating System:		**Easy fix?:**	Yes
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	29450

Description

Open a Mesh layer properties tab

Enable the Symbology (or Style, depending on the version) tab

You have different tabs that allow access to different kind of features

To make them understandable and to ease documentation of these features, it could be nice to add tooltips to the icons (not always self-evident). Also, this will be coherent with the way sub tabs are handled in eg, vector layer properties (see labels or diagrams properties). Also it makes sense imo that buttons have either a label or a tooltip.
