QGIS Application - Feature request #21688
Zonal Statistics alters zone layer, should create new layer

2019-03-28 03:57 PM - Johannes Kroeger

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	29504

Description

Zonal Statistics tries to write the statistics to the file/layer chosen in "Vector layer containing zones".

I have not tried, but I would assume that this renders the tool unusable with e.g. a read-only WFS source.

Pretty much all other tools, including Zonal Histogram, instead create a new layer or file.

Please make Zonal Statistics not try to alter the zone layer by default, instead use the same mechanism ("[Create temporary layer]" by default) as other tools.
