When doing a GetFeatureInfo request on the service

https://services.geo.zg.ch/ows/Gebaeudebrueter

and choosing "feature" (application/json) as format, all numeric values are not shown. Potentially, other data types might also be affected (haven't tested boolean or other data types).

Note that in HTML and Text format, numeric values are displayed, correctly, but in JSON format (Format=Feature) all numeric values are omitted.

See screenshots attached.

Here is the corresponding manual request:

https://services.geo.zg.ch/ows/Gebaeudebrueter?SERVICE=WMS&VERSION=1.3.0&REQUEST=GetFeatureInfo&BBOX=2682488,1222987,2683185,1223726&CRS=EPSG:2056&WIDTH=899&HEIGHT=952&LAYERS=zg.geaeudebrueter&STYLES=&FORMAT=image/png&QUERY_LAYERS=zg.geaeudebrueter&INFO_FORMAT=application/json&I=312&J=362&FEATURE_COUNT=10

Hi,

I tested the PR and it works fine!

Thanks a lot,
Andreas

#4 - 2019-04-27 06:25 PM - Alessandro Pasotti
- Status changed from In Progress to Closed
- % Done changed from 0 to 100

Applied in changeset commit:qgis|c87833c807aed321f06e3cb4900315952b439398.
