QGIS Application - Bug report #21758
Snapping to grid/objects does not work with rotated item

2019-04-03 08:12 PM - Brett Carlock

Status:	Open		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Affected QGIS version:	3.6.1	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	29573

Description

As above, when an item is rotated -90deg or 270deg it no longer is a canditate for snapping.

Any non-zero value for rotation causes this (which makes sense to some degree), but when an item is being rotated to angles parallel or perpendicular to the document itself (and therefore every other object), this should be a non-issue.
