Pull Request or Patch supplied:	No	Resolution:
Easy fix?:	No	Copied to github as #: 29606
Description		
<p>There are various spacing controls for legends in the Print Composer, but none of them seem to let you indent the subitems of a legend item. This is described in more detail, with examples, at https://gis.stackexchange.com/questions/279707/indenting-subitems-in-qgis-composer-legend - and it'd be great if this could be added.</p>
