QGIS Application - Bug report #21869
"Advanced digitizing" panel doesn't update itself to the active point of origin

2019-04-17 09:40 AM - Andreas Olsson

Status:	Open			
Priority:	Normal			
Assignee:				
Category:	Digitising			
Affected QGIS version:	3.6.1		**Regression?:**	No
Operating System:	Windows 10		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	29684

Description

If "Advanced digitizing" is turned on after inserting a vertex it doesnt work until inserting a new vertex.
And if a vertex of a line in edit is undone[DEL] the "Advanced digitizing" doesnt go back to previous vertex
but instead stays vere the last vertex vere inserted.

History
