

QGIS Application - Bug report #21874

Zoom to selection not always working

2019-04-17 04:28 PM - Adam Lemire

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Map Tools	
Affected QGIS version:	3.6.1	Regression?: No
Operating System:	Windows 10 64bit	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29689
Description		
<p>"Zoom to selection" is not always working.</p> <p>Sometimes, the map doesn't move at all and the selection is still out of the view, or in a corner of the view.</p> <p>After it happens, I can't pan the map until I select another element and zoom to the new selection.</p> <p>Other times, it pan to the selection, without zooming in.</p> <p>(not sure if I selected the right category)</p>

Can you attach a sample project with data proving the problem?

Have you tried with a new/clean qgis profile (no 3rd party plugins installed)?
