

QGIS Application - Feature request #21875
add support for "triangles" PostGIS geometry type

2019-04-17 06:10 PM - Darafei Praliaskouski

Status:	Open	Resolution: Copied to github as #: 29690
Priority:	Normal	
Assignee:		
Category:	Data Provider/PostGIS	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
I have a table of TRIANGLE's in PostGIS. QGIS shows it as Polygon layer, and when I click using Identify tool on triangles, they show up, but they are not rendered by main map as polygons.

- Status changed from Open to Feedback

Can you attach a sump of the table (even with sample data)?

#2 - 2019-04-18 01:38 PM - Darafei Praliaskouski

- File triangles.sql.bz2 added

Please find dump attached. (why 5mb limit?:)

#3 - 2019-04-18 02:01 PM - Giovanni Manghi

the layer loads here, but is not identifiable or selectable or editable, is that what you mean?

#4 - 2019-04-18 02:14 PM - Darafei Praliaskouski

- File 2019-04-18 151330.jpg added

Layer loads for me, it is identifiable but renders nothing. If I click somewhere contours of objects render.

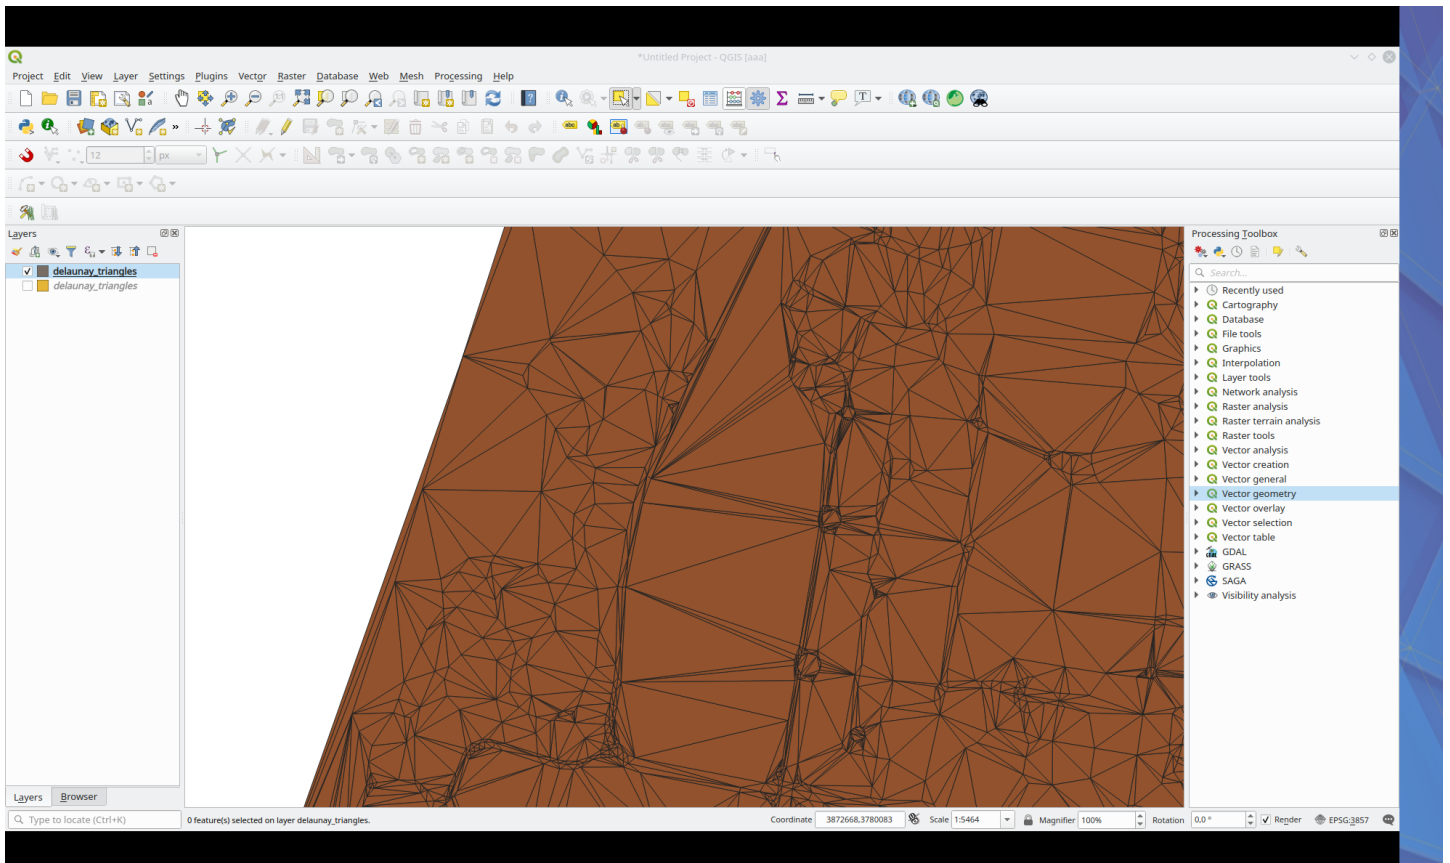

#5 - 2019-04-18 02:17 PM - Giovanni Manghi

map show here, not identifiable or selectable (is editable, it just needs a primary key).

#6 - 2019-04-18 04:08 PM - Darafei Praliaskouski

Found it. "Simplify on provider's side if possible" triggers this.

...

```
gis=# select ST_Simplify(geom, 0) from delaunay_triangles limit 10;
ERROR: lwgeom_simplify_in_place: unsupported geometry type: Triangle
...
```

I will try to fix this on PostGIS side, but that will be PostGIS v3+ since it's essentially a feature. Would be great to see this error on UI somewhere at least.

#7 - 2019-04-18 08:27 PM - Giovanni Manghi

- Tracker changed from Bug report to Feature request
- Subject changed from Triangle in PostGIS is half-working to add support for "triangles" PostGIS geometry type
- Status changed from Feedback to Open

#8 - 2019-05-15 08:21 PM - Darafei Praliaskouski

these functions shouldn't fail on triangles in PostGIS starting next release:

<https://github.com/postgis/postgis/commit/4335b10ac3152c9a5a8008dc022a8b50adac66c6>
