This looks like ticket #3933.

#2 - 2006-08-05 03:02 PM - Gavin Macaulay -

Ahhhhhhhhhhh! I've spent hours tracking this bug down, and it's exactly the same as ticket #3933!

I'll try gdal 1.3.2 and close it if it corrects the problem, and add something to the tips forum.

I presume that qgis-0.8.0-win32-060724 was built with 1.3.0 or 1.3.2 (I'm seeing the problem on Linux).

#3 - 2006-08-05 04:54 PM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

Upgrading to gdal 1.3.2 fixes the problem.

#4 - 2006-08-08 03:26 AM - Gavin Macaulay -

The commit:1cc1c875 (SVN r5672) commit may also help when trying to digitise on a blank map and no other layers loaded.
