Affected QGIS version:	3.4.6		**Regression?:**	No
Operating System:	Windows		**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	
Crashes QGIS or corrupts data:	Yes		**Copied to github as #:**	29763

Description

I am running QGIS version 3.4.6. It is crashing if I have the Advanced Digitzing active with snapping enabled. When I turn off snapping, Advanced Digitizing works as it should.

Can't replicate here. Would you mind attaching a sample project+sample data? Also try on a new/clean qgis profile (no 3rd party plugins installed).
